

**Long Range Planning Committee  
Minutes, January 2006**

Present: Ron Buss, Grover Jaeger, Randy Peterson, Cathy Snyder, Betty Newell

The meeting began at 7:00pm.

Several issues pertaining to the final draft of the property owner survey were addressed:

The Assessment question – needed re-work to remove potentially biased interpretations

“Community Center” and “Administrative Space” were moved to the ranking grid on pg. 1.

Add household age ranges back to Census portion of the survey, for ease of comparison with 2002 data.

Adjust sequencing of homeowner/rental home question. Add indents.

Make answer choices regarding intended length of stay in Massanutten mutually exclusive.

Cathy reported that she has access to some Business Plan-oriented software that is reasonably comprehensive. She will make efforts to bring that to the next meeting.

Discussion returned to the idea of an open committee meeting with all MPOA chairs for brainstorming purposes, separating need-to-know information from nice-to-know information. It was noted that the additional committees should be given plenty of notice to re-arrange personal calendars. Cathy will send like notice on to Crystal Reamy in the MPOA office.

The meeting adjourned at 7:40pm.
